

DEVIKA YANAMALA

Newcastle, UK (Open to Relocation) | devikayanamala55@gmail.com | +44 7352683914 | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Results-driven Data Scientist & Analyst with 2+ years of experience building and deploying production ML systems and business intelligence solutions. Proven track record in optimizing data pipelines, building interactive dashboards, and delivering actionable insights to stakeholders. Expert in Python, SQL, and Power BI/Tableau.

TECHNICAL SKILLS

- Languages & DBs: Python (Pandas, NumPy, Scikit-Learn, PyTorch), R, SQL, PostgreSQL, Snowflake
- AI & Analytics: Supervised/Unsupervised ML (XGBoost, Random Forest), NLP, Explainable AI (SHAP), Deep Learning, EDA
- Tools & BI: Power BI (DAX), Tableau, Advanced Excel (VBA, Power Query), Git, AWS, APIs

PROFESSIONAL EXPERIENCE

Data Analyst (Studentship) | Newcastle University Library, UK | 01/2026 – Present

- Engineered automated Python pipelines to process smartcard and occupancy data, ensuring 100% data integrity for weekly reporting.
- Deployed interactive Power BI dashboards (DAX) to optimize library space occupancy, saving operational costs.

Lead Data Analyst & Developer | Rooted (Independent Project) | 04/2026 – Present

- Built an MVP platform using React and Node.js to analyze user behaviour and proximity patterns across 100+ cultures.
- Developed a location-based discovery engine with fallback routing to national distributors during data scarcity.

Associate Data Scientist | BEPEC Solutions, Bangalore, India | 05/2023 – 05/2025

- Automated manual reporting pipelines and built dynamic business intelligence dashboards, improving efficiency by 30%.
- Developed scalable predictive models and automated workflows using Python and AWS, increasing forecast accuracy by 15%.

Data Scientist Intern | BEPEC Solutions, Bangalore, India | 01/2023 – 05/2023

- Performed EDA and data preprocessing on large-scale datasets, improving data quality and resolving pipeline bottlenecks.

KEY PROJECTS

Next Best Action & Customer Churn Prediction Engine (Banking) | Python, XGBoost, SHAP

- Developed an end-to-end churn classification pipeline using XGBoost; applied SHAP for explainability and SMOTE for class imbalance.

Commercial Opportunities Analytics Dashboard (Retail) | Power BI, DAX, Python

- Engineered a Star Schema data model and designed an executive Power BI dashboard, identifying £150K+ in annual profit recovery opportunities.

EDUCATION

Master of Science (MSc), Data Science & Artificial Intelligence | Newcastle University, UK (Expected 09/2026)

Bachelor of Technology | IIIT, RGUKT, RK Valley, India (CGPA: 8.7/10) | 2019 – 2023

LEADERSHIP & CERTIFICATIONS

- UK Work Culture Programme (Awarded Participant) — Newcastle University
- Global Ambassador — WomenTech Network | Volunteer Module Representative — Newcastle University
