

DEVIKA YANAMALA

Newcastle, UK (Open to London Relocation) · devikayanamala55@gmail.com · +44 7352683914 · LinkedIn · GitHub

PROFESSIONAL SUMMARY

AI Engineer & Data Scientist (MSc Data Science & AI) with 2+ years of experience building and deploying production-ready machine learning algorithms. Skilled at leveraging LLMs, vector databases, and NLP to solve complex product and marketing challenges at scale within fast-paced environments. UK Graduate Visa eligible from Sept 2026.

TECHNICAL SKILLS

- AI & Model Development: LLMs, NLP, RAG Pipelines, Prompt Engineering, Vector Databases (embeddings/similarity search), Python (Pandas, NumPy, PyTorch, scikit-learn).
- Full-Stack & Product Analytics: React, TypeScript, Postgres, SQL, Power BI, Advanced Excel, EDA.
- Engineering & Ops: Git, APIs, Model Validation, Data Pipelines.

PROFESSIONAL EXPERIENCE

- Data Analyst – Product Analytics | Rooted | Independent Project***04/2026 – Present*
 - Engineered an MVP platform using Python and SQL to analyze user behavior trends, integrating AI-driven insights to optimize market strategy, product features, and automated workflows.
- Data Analyst (Studentship) | Newcastle University, UK***01/2026 – Present*
 - Developed automated Python data pipelines and semantic models to analyze large-scale usage datasets, ensuring reliable and accessible data for reporting and 100% data integrity.
 - Collaborated with cross-functional stakeholders to translate technical findings into clear, actionable recommendations through interactive data storytelling.
- Associate Data Scientist | BEPEC Solutions, Bangalore, India***05/2023 – 05/2025*
 - Built and deployed foundational machine learning models in Python to solve complex business opportunities, improving operational efficiency by 30%.
 - Collaborated remotely in Agile teams alongside data engineers and product stakeholders to document workflows and translate business requirements into advanced analytics solutions.
- Data Scientist Intern | BEPEC Solutions, Bangalore, India***01/2023 – 05/2023*
 - Conducted Exploratory Data Analysis (EDA) and data preprocessing on large-scale datasets, tracking historical data trends to contribute to a 15% improvement in forecasting accuracy.

KEY PROJECTS

- Pharmaceutical Marketing Campaign Strategy (Statistical Modeling) | Python, Pandas, Seaborn, Statsmodels**
 - Statistical Testing: Applied advanced statistical methods and time series analysis to conduct rigorous model validation on marketing ROI, attributing \$1.33B in sales to the optimal channel.
 - Communication: Translated complex technical findings and data visualizations into actionable budget allocation recommendations for non-technical senior stakeholders.
- LLM Storytelling Application & Prompt Orchestration (MSc Project) | Python, OpenAI, Vector DBs**
 - AI Engineering: Engineered a Streamlit storytelling application using a plan-then-scene architecture and Gemini API to generate structured JSON schemas for consistent story generation.
 - NLP & Safety: Built a hybrid NLP pipeline using Python, spaCy (NER), and NMF Topic Modeling to analyze story metadata and mitigate demographic and thematic biases.

EDUCATION

MSc Data Science & Artificial Intelligence | Newcastle University, UK | Expected 09/2026
BEng (BTech) | IIIT RGUKT RK Valley, India | 2019 – 2023 | CGPA: 8.7/10

CERTIFICATIONS & ACHIEVEMENTS

- UK Work Culture Programme (Awarded Participant) | Newcastle University — Selected for a competitive programme solving live UK business challenges and presenting actionable solutions to corporate stakeholders.

LEADERSHIP & VOLUNTEERING

- Global Ambassador | WomenTech Network — Active participant in global initiatives promoting technical excellence, leadership, and diversity in AI and Data Science.
- Volunteer Module Representative | Newcastle University — Elected to represent the MSc cohort, collaborating directly with faculty to optimize curriculum delivery and student experience.
